

Acceptable Technology Use, Procedures, Rights, and Responsibilities

We believe everyone deserves a safe, supportive, and orderly learning environment.

Boone County Schools recognizes that access to technology in school gives students greater opportunities to learn, engage, communicate, and develop skills that will prepare them for work, life, and citizenship. We are committed to helping students develop 21st century skills. We provide access to technologies for students, staff, and parents for educational purposes. While the District will make every effort to prevent inappropriate use, it is impossible to filter all inappropriate content. Students, staff, and parents are expected to adhere to the procedures and guidelines outlined in this Acceptable Technology Use document and the Boone County Board of Education Acceptable Use Policy (08.2323) when using district/school provided technology or personally-owned technology on district property.

Roles and Responsibilities of Students

Students are expected to use resources responsibly and will be held accountable for their behavior and communications. All communications, data, and files stored or transmitted via the district resources may be reviewed and/or removed.
