## **Parent Guide For Home Use**

**Section One: Internet Connectivity**  
**Section Two: Checking System Requirements**  
**Section Three: Student Use**  
**Section Four: Checking Student Progress**  
**Section Five: Troubleshooting**

## Section One: Internet Connectivity

### Dial-up Internet Connections:

- You may experience a delay when initially connecting to Compass Odyssey. The Odyssey log in screen may take a few minutes to load.
- You may experience a delay when loading an activity – particularly the FLASH activities. Once the activity loads, it usually performs with no delays.

### High Speed Internet Connections:

- High speed connections usually work with no delays.

### Other Connectivity Tidbits:

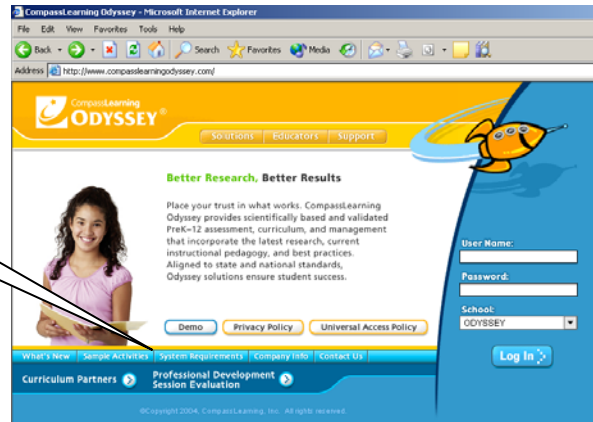

- As with any Internet use, performance and load time varies from one Internet Service Provider to another, Internet traffic, individual computer performance, etc.
- All schools have licensing that allows for a certain number of users to access Compass Odyssey at one time. The number of licenses varies from school to school. Please be sure to **LOG OUT** of Compass Odyssey when finished using the program.

## Section Five: Troubleshooting

**\*\*\*Please note: If you have a pop up blocker running on your computer you may have difficulty accessing Compass Odyssey. All activities in Compass Odyssey open in a second window and many times pop up blockers will not allow the activities to open. You may need to disable your pop up blocker or at the very least set it to allow pop ups from the Compass Odyssey site.\*\*\***

Common log in errors are indicated below along with a description of what they mean and any recommendations on what to do to avoid seeing the error message again!

1. Upon logging in to Compass Odyssey, you receive the following message:

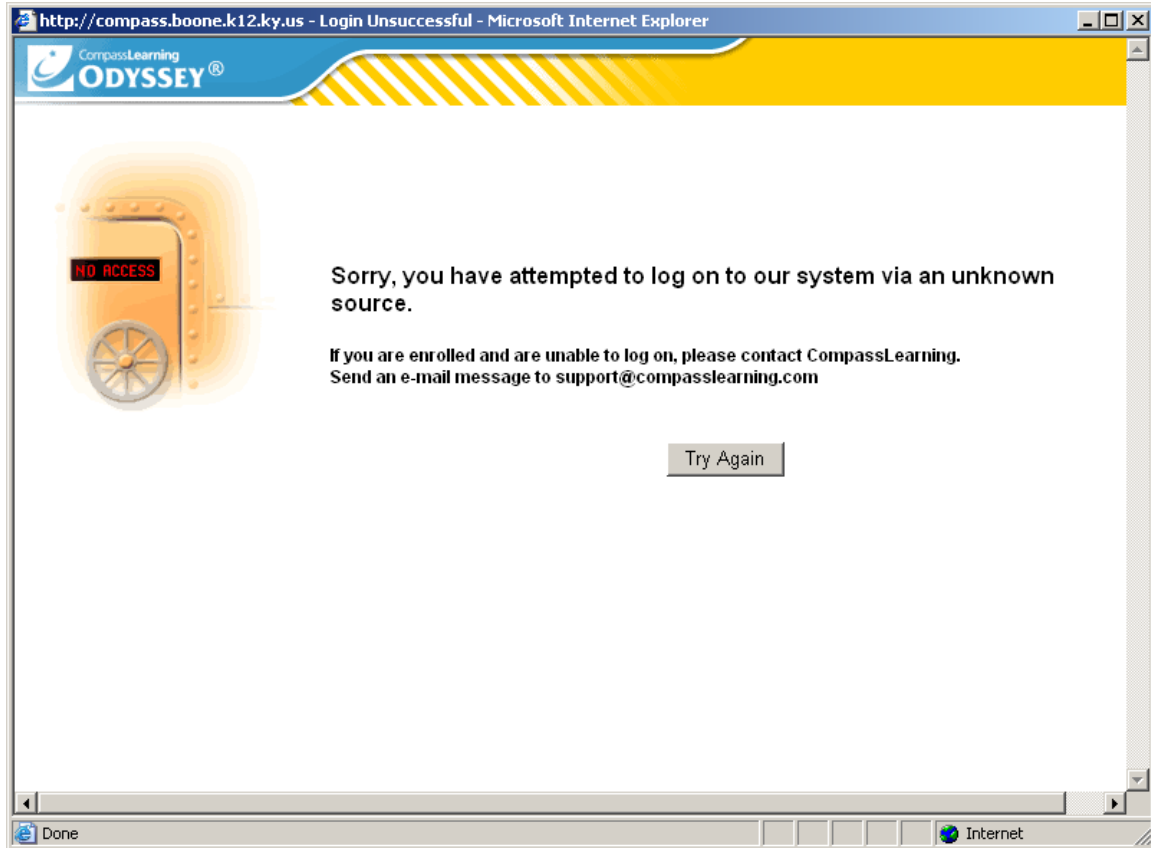

**You have run out of user licenses. Please try again later.**

If you are enrolled and are unable to log on, please contact CompassLearning.  
Send an e-mail message to [support@compasslearning.com](mailto:support@compasslearning.com)

This message indicates that too many people are trying to access Compass Odyssey at one time. Each school has a set number of concurrent users. Once that number has been reached, no additional users may log on until someone logs out and opens up a license.

Solution: Try logging in to Compass Odyssey at another time.

2. Upon logging in to Compass Odyssey, you receive the following message:

This message indicates that you have a www in the address line (URL). The correct address for accessing Compass Odyssey is <http://compass.boone.kyschools.us>

Solution: Remove the www. from the address line, **click GO or press ENTER**, and then log in again.

3. Upon logging in to Compass Odyssey, you receive the following message:

This message indicates that something in your log in information is incorrect. It could be the user name, password, and/or school name.

Solution: Check your spelling and **spacing** and log in again.

4. Upon logging in to Compass Odyssey, you click Log in but it takes you right back to the same log in screen.

This event usually indicates that pop up blockers are running.

Solution: Disable the pop up blocker or allow pop ups from the Compass Odyssey site and then log in.
