

# WELCOME TO VISUAL ART 2

Being a part of Visual Art 2 will allow you the time and opportunity to explore additional art forms and build your skill. This summer, you will start in building a reference library for yourself that will assist you in future projects throughout the year.

You have two main goals this summer:

1. Capture 20+ photographs of people, places and things that you find interesting enough to document. These will become references for you this year so make the composition interesting and unique. Create a PowerPoint with all of your photos in it before Day 1 of class.

2. Create one additional artwork that is at least 8x10 inches in size. You will bring this artwork with you on the first day of classes matted and ready for a critique. View this presentation and choose one of the many project ideas presented as your choice piece:
