This would be a neat time to research someone within a different culture or area of the world from your own

For the artist you select, do these things:

A) Collect images by the artist

-Present them and write notes about them:

>Describe the artwork, what does it look like, what is the content?

>Use art terms: explain the use of elements and principles of art within the work

>What do you think the artist was trying to accomplish?

>What do you think about the artwork?
What do you think about the artist?

B) Copy the style and do some doodling

>Create some small works of art in your artist's style
