

Procedures for Determining Alignment with State Standards, Technology Utilization, and Program Appraisal

KRS160.345(2)(i)10

Standing Committee – A standing committee will be formed to assist with school technology, chaired by the technology coordinator. The committee shall be responsible for:

1. Assessing the needs for instructional and administrative technology.
2. Becoming knowledgeable of the state's plan for educational technology.
3. Designing a plan for implementing technology in Ockerman Middle School.
4. Helping identify sources of funds that can be matched with state funds.

State Standards – A technology plan shall meet all criteria set by the state and shall be consistent with the curriculum and instructional program of Ockerman Middle School.

Reports – The committee shall recommend a plan to the council and shall report the status of plan implementation to the council at least annually.

Cost Projects – All technology plans shall include description of hardware, and software and estimated cost.

Alignment with State Standards – Procedures for alignment of curriculum, programs, etc., with state standards shall be accomplished by the curriculum committee.
