

AP Biology Summer Assignment 2018/2019

Welcome to AP biology! This class is highly intensive and we will be covering a breadth and depth of material. Please be aware that part of taking this class is commitment to being present, on task, and hard working. Although AP Biology is a huge commitment, we will have a lot of fun. I look forward to working with each one of you next year!

Mandatory Assignment #1

1. Use the handout for assignment 1 to read about animal behavior and design an experiment following the directions.

Mandatory Assignment #2- BILL

1. Make BILL, your Biology Interactive Learning Log. Use the handout provided to make BILL. We will use BILL on a daily basis and “he” will be incredibly helpful to you when reviewing for the AP Biology exam. Be creative and make yours unique.

Mandatory Assignment #3- Big Ideas of AP Biology

1. The first 4, full pages of BILL should be your table of contents. The first right hand page in BILL after your table of contents is where you will log this first assignment.
2. The title on this page should be “The 4 Big Ideas of AP Biology.”
3. Play the following YouTube video, <https://www.youtube.com/watch?v=ibhnP5suqK8> or you can search for the video by typing: Bozeman Biology AP Biology Big Ideas.
4. While watching the video, you will take notes on the big ideas of AP Biology in BILL.
5. You will then need to interact with the information on the left hand page of BILL using one of the methods suggested in the handout provided about BILL.

If you have any questions don't hesitate to email me at lindsay.melching@boone.kyschools.us . **These assignments will be due on the first day of school.**
