

RCHS Credit Recovery Options

➤ **Credit Camp**

Cost: \$25.00 per ½ credit or \$50.00 per full credit

Description: This is a web-based program that students can take only if they failed a class with a 60-69% (and have already passed the EOC exam during the school year). This Program is performance based and once a student passes the final exam with a 70% or better—they recover the credit.

***Note:** *This is not an option for math courses or any classes that have an End of Course State Assessment. The only option for these classes is summer school, regardless of the student's grade.*

➤ **Summer Session**

Cost: \$60.00 per ½ credit or \$120.00 per full credit

Description: This is a performance based session for students who have failed a class with a final grade of 59% or less, choose to not do Credit Camp, enrolled in an End of Course Class, or enrolled in a Math Course. Students take a pre-assessment and a learning path will be designed by the teacher to address their areas of deficiencies. Students will have access to a content teacher to get assistance, but the content is not “taught” in a large group setting, small group instruction will be utilized. Students will be placed in groups based on their needs and will work to master the content. Once students complete their path, they may request to take the final exam and when they pass with a 70% or better, they have recovered the ½ or full credit.

Students and Parents are encouraged to talk with the guidance counselors or administration if you need additional options to recover credits. Research shows that students who fall below their grade level are twice as likely to drop out of school. Our number one goal is to provide as many resources as possible to assist students and help them make a successful transition to adulthood.
