

Education Enhancement Opportunity

Your child has been tentatively approved for an Educational Enhancement Opportunity. An Educational Enhancement Opportunity must be determined to be of significant educational value, including but not limited to participation in an educational foreign exchange program or an intensive instructional, experiential, or performance program in at least one (1) of the core curriculum subjects of English, science, mathematics, social studies, foreign language, and the arts.

Your student will present to school faculty a report that demonstrates the learning that has taken place during their time away from school. This report may take the form of a traditional essay, presentation with slides, video, art work with artist's statement, etc and must represent the quality of work typical of school assignments. A more detailed description of the expectations for this assignment is attached.

It is also important that your child complete missed work from class. For this reason, it is important to request work from your child's teacher for the time they will be missing or obtain it when your child returns.

The report and school work must be submitted within 5 days of the return of the student. The administrators will make the final determination whether the opportunity meets the criteria showing significant educational value.

Please sign and return the bottom of this form.

Thank you,

Ryan Montgomery, Principal

Educational Enhancement Opportunity

I understand that my student, _____, will be responsible for completing and presenting a report to convey knowledge that was acquired as a result of that opportunity as outlined in the information above.

I also understand that I am responsible for obtaining the work that my child will miss and have my child complete this work.

I understand that the report and school work must be submitted within 5 days of my child's return to school.

Name _____

Date of Trip _____

Report due date _____

Parent Signature _____

Educational Enhancement Opportunity

Please return this sheet for approval with report.

Student Name _____ Date _____

Teacher	Principal	
		Report submitted as traditional report, power point, photo essay, movie trailer, poster essay, or other. (Please circle and list if other)
		Report outlines each educational opportunity that was presented during the trip and the knowledge that was acquired as a result of that opportunity.
		Student obtained and completed missed work from each class (Each teacher in the student's schedule should initial in column to the left).
		Information completed and submitted within 5 days of return to school.

Educational Enhancement Opportunity Assignment:

Students will submit a product that addresses a topic or concern that the student learned about during the opportunity, for example, the unique ecosystem they observed at the coral reef, the culture of another town, how the architecture of a place is engineered, etc. To demonstrate their learning, the student should:

Compose informative and/or explanatory texts to examine a topic and convey ideas, concepts and information through the selection, organization and analysis of relevant content:

- a. Produce clear and coherent writing in which the development, organization and style are appropriate to task, purpose and audience.
- b. Introduce a topic clearly; organize ideas, concepts and information, using strategies such as definition, classification, comparison/contrast and cause/effect; include formatting, graphics and multimedia when useful to aiding comprehension.
- c. Develop the topic with relevant facts, definitions, concrete details, quotations or other information and examples. Use appropriate transitions to create cohesion and clarify the relationships among ideas and concepts. Use precise language and domain-specific vocabulary to inform about or explain the topic.

If your student is missing 6-10 days of schools, the student is also expected to study and reference 2-3 texts as references in their report relevant to the topic of study. One of these must be a data or statistical reference.
