

Ockerman Elementary Site Based Article 1.1

Ockerman Elementary School Council Mission

The mission of the Ockerman Elementary School Council is congruent with the mission of the school. We believe in academically and socially preparing students who are responsible, independent thinkers possessing effective communication skills, self-discipline, and respect. We believe in providing an innovative learning environment supported by quality teachers and staff, involved parents and community.

We accept the responsibility of educating each student to the highest level of academic performance possible, while fostering positive growth in social and emotional behaviors and attitudes. We also accept the responsibility in creating a safe and non-threatening learning environment. Our philosophy is that parents, community, and educational staff working together can create a learning climate in which all students begin to develop into lifelong learners.
