A Message from Mr. Matthew L. Turner Superintendent of Schools

Welcome to the Boone County Schools! On behalf of the board of education, administration, faculty, staff, and students, we are excited that you will be joining us.

We are very proud of our students, our employees and our schools and make no mistake – the amazing people in our schools and our community make Boone County the right place for you! The Boone County Schools are the third largest public school district in the Commonwealth of Kentucky with over twenty-one thousand students, fourteen elementary schools, six middle schools, four high schools, two academies, and a new elementary school under construction for the 2021-2022 school year. We are also a district of diverse learners with over 1,400 of our students being English Language Learners, who speak over 60 home languages. The Boone County School District is accredited through the Cognia International Registry for Accreditation. The Commonwealth of Kentucky has also recognized the Boone County Schools as a Distinguished School District and also a District of Innovation.

The Boone County Schools have many exciting opportunities for our students to help prepare them for their future. We offer innovative college and career programs and pathways in our schools such as Project Lead the Way for engineering, bio-medical science, and manufacturing in addition to accelerated coursework in Advanced Placement programs, the Boone County Early College program and other opportunities for dual-enrollment. Students at The IGNITE Institute at the Roebling Innovation Center will have the opportunity to pursue several STEAM pathways (Science, Technology, Engineering, Arts and Math). Opportunities for K-8 students include a first of its kind Makerspace program with creative programs that empower children to learn new hands-on skills and make projects using electronics, 3D printing, robotics, woodworking, crafting and programming.

We believe the safety of our students, staff, and community are of paramount importance. Learning simply cannot occur if students do not feel safe physically, emotionally, and academically. Please read and review these expectations with your children, as discussing and reviewing both appropriate and inappropriate behavior is important for their learning and understanding. Our school district is deeply committed to teaching and acknowledging positive behavior in addition to demanding accountability for inappropriate behavior. We do expect and demand that all students, staff, parents, and community members demonstrate respect for every individual regardless of their personal characteristics.

This Code of Conduct Handbook also outlines important information about the rights and responsibilities of students, parents, staff and annual parent notifications for several very important areas. Thank you for working together to achieve our vision of every graduate being college, career, and life ready!

Sincerely,

Matthew L. Turner
Superintendent of Schools
Introduction

Purpose of the Code of Conduct

The Boone County Board of Education believes the purpose of the Code of Conduct is to maintain a safe, wholesome learning environment in the schools. The Board believes each individual student behavior incident should be considered and extenuating circumstances should always be reviewed for the welfare of the student. The Code is intended to act as a guide to ensure students are treated fairly, but flexible enough to address individual student behavior incidents. This flexibility will enhance the learning environment.

The Code of Conduct applies to all students, staff, and visitors in the Boone County Schools. The Code of Conduct, as adopted, will be supported by school expectations, rules and regulations, and be primarily administered through the authority of principals of the Boone County Schools with the support of the instructional staff of the schools.

Philosophy

To ensure that an environment conducive to effective learning is maintained in the Boone County Schools, it is necessary to establish a consistent and effective discipline code. The Boone County Board of Education recognizes its responsibility to prepare students for their role as adults in a democratic society. To accomplish this, there must be a mutual respect and trust toward each other by students, parents and school staff. The Code of Conduct is a vehicle for accomplishing this objective.

Effective learning is not possible without an environment that is safe, respectful, accessible, responsible, and equitable. Establishing behavior expectations that are taught and reinforced by all school staff members creates such an environment.

The Board of Education is entrusted with the mandate to educate all children until graduation or age twenty-one (21). They are committed to establishing an environment that is most conducive to learning, while protecting the individual rights and responsibilities of all.

About the Code of Conduct

Each year Boone County Schools reviews the Code of Conduct. A committee of parents, teachers, administrators, and advocates meet to consider recommendations and to make needed revisions. Each local school safety plan is reviewed in like manner. Legal counsel, forwarded to the Superintendent and School Board for approval, then reviews the revisions.

Questions concerning the Code of Conduct should be directed to:

Tiers of Intervention
Positive Behavioral Intervention & Support (PBIS)

The Boone County School District facilitates the Positive Behavior Interventions and Supports (PBIS) framework which includes proactive strategies for defining, supporting, and teaching appropriate behaviors to create positive learning environments. Attention is focused on sustaining a three-tiered system of support to enhance student learning. Students often need encouragement and new skills to improve behaviors and assistance in learning to do so. School staff recognizes that maintaining and changing student behaviors involves a continuum of acknowledgements, supports, and interventions. (Center for Positive Behavior Intervention Supports, University of Oregon).

The Boone County School District has embraced Positive Behavior Interventions and Supports (PBIS) to enhance school climate and culture across the district. PBIS is a research-based model that studies have shown to improve student academic and behavior outcomes. Our schools strive to ensure all students have access to effective behavioral practices and interventions. PBIS provides a framework for analyzing school wide behavior referrals to make decisions and solve problems based on their individual school needs.

Parents and student(s) will notice PBIS in our schools when they see and hear each school’s clearly defined expectations for all school settings and by the rewards student(s) can obtain by meeting these expectations.

Successful PBIS implementation will help us:

- Have more engaging, responsive, preventative, equitable, accessible, and productive learning environments.
- Improve classroom management and address disciplinary issues based on data analysis.
- Improve supports for students whose behaviors require more specialized assistance.
- Maximize academic engagement and achievement for all students.

PBIS schools organize their evidence-based behavior practices and systems into an integrated collection or continuum in which students experience supports based on their behavior responsiveness to intervention. A three-tiered prevention logic requires that all students receive supports at the universal or primary tier. If the behavior of some students is not responsive, more intensive behavioral supports are provided, in the form of a group contingency (selected or secondary tier) or a highly individualized plan (intensive or tertiary tier).

Notification of Rights under FERPA for Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the Boone County Schools receives a request for access.

   Parents or eligible students who wish to inspect their child’s or their education records should submit to the school principal or official a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

   Parents or eligible students who wish to ask the Boone County Schools to amend their child’s or their education record should write the school principal official and clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school’s or school district’s annual notification for FERPA rights. A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

   Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student’s enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or
student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Boone County Schools to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

   Student Privacy Policy Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC  20202

See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students’ education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. Model Notice for Directory Information

[Note: Per 34 C.F.R. § 99.37(d), a school or school district may adopt a limited directory information policy. If a school or school district does so, the directory information notice to parents and eligible students must specify the parties who may receive directory information and/or the purposes for which directory information may be disclosed.]

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Boone County Schools, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, Boone County Schools may disclose appropriately designated “directory information” without written consent, unless you have advised the Boone County Schools to the contrary in accordance with Boone County Schools procedures. The primary purpose of directory information is to allow the Boone County Schools to include information from your child’s education records in certain school publications. Examples include:

- A playbill, showing your student’s role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent’s prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965, as amended (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent. [Note: These laws are Section 9528 of the ESEA (20 U.S.C. § 7908) and 10 U.S.C. § 503(c).]

If you do not want Boone County Schools to disclose any or all of the types of information designated below as directory information from your child’s education records without your prior written consent, you must notify the Boone County Schools in writing by [insert date]. Boone County Schools has designated the following information as directory information:
