

# **COOPER ACADEMY OF MATHEMATICS & SCIENCE**

**The purpose of the Cooper Academy of Mathematics and Science (CAMS) is to provide our students who have excelled in mathematics, science, and reading a high school curriculum rich with high level mathematics and science courses that will both challenge and prepare them for a post-secondary mathematics or science career.**

**The CAMS program offers two different areas of interest: engineering and medical profession.**

**Students who enter this program will be surrounded with like-minded peers and a dedicated set of teachers to help push them to meet their full potential.**

**For more information, visit [coopercams.yolasite.com](http://coopercams.yolasite.com) or email Julie Ison at [julie.ison@boone.kyschools.us](mailto:julie.ison@boone.kyschools.us).**

# FACTS & STATS

- CAMS is Cooper's most rigorous program designed for driven, hard-working students
- High level of commitment required
- Students have the opportunity to take the maximum number of upper level math and science courses including 4 AP science courses and 2 AP math courses
- 100% acceptance rate into the prestigious Gatton Academy of Math & Science or the Craft Academy for Excellence in Science and Mathematics (9 of 9)
- 3 year ACT average for CAMS students is 29.3 (well above the national, state, district, and school average)
- Over the past 4 years, CAMS students account for over half of the students accepted into the Kentucky Governor's Scholars Program from Cooper (27 of 40)
- May participate in group centered activities, special guest speakers, special recognition at graduation, and other perks
- CAMS students form long-lasting friendships with like-minded peers
